SUMMARY

Highly motivated and dedicated Frontend React Developer with a strong passion for creating exceptional user experiences. Proficient in HTML, CSS, Tailwind CSS, and React, with a solid understanding of modern web development principles. Skilled in building responsive and visually appealing websites from concept to completion, while adhering to best practices and industry standards. Collaborative team player with good communication skills, able to work effectively in cross-functional environments. Proactive problem-solver, eager to learn and grow within a dynamic and innovative development team. Committed to delivering high-quality code and contributing to the success of projects in a fast-paced and challenging environment.

EXPERIENCE

React Developer

Labixe Ltd 📅 12/2022 - 06/2023 📍 London, UK

- Successfully developed and launched a complete website consisting of 12 pages for Labixe ltd from scratch, utilizing HTML, CSS, Tailwind, and React.js, showcasing exceptional front-end development skills.
- Implemented an intuitive user interface and responsive design, resulting in improved user experience and increased user engagement.
- Collaborated closely with cross-functional teams, including designers and backend developers, to ensure seamless integration of website components and efficient functionality.
- Actively maintained and updated the website, swiftly resolving any issues or bugs, ensuring optimal performance and functionality for users.
- Successfully integrated third-party APIs and services to extend the functionality of the website, enhancing its capabilities and providing additional value to users.
- Received positive feedback from users and stakeholders for the visually appealing design, smooth user experience, and seamless navigation, contributing to increased brand visibility and customer satisfaction.

Frontend Developer (Remote)

Necron 📅 09/2023 - 11/2023 📍 Riyadh, Saudi Arabia

- Collaborated closely with a UI/UX designer, translating Figma designs into a functional and visually appealing website. Showcasing effective communication and teamwork skills
- Developed a responsive and visually appealing website for Necron Host, a leading hosting company in Saudi Arabia, focusing on the frontend implementation.
- Utilized React.js as the primary frontend library to create a dynamic and interactive user interface.
- Implemented React Helmet to optimize the website for search engines (SEO), enhancing its visibility and accessibility.
- Implemented modern design principles and styling using TailwindCSS, ensuring a sleek and professional appearance.
- Integrated ChartJS to visualize data effectively through interactive charts on the website.
- Successfully delivered the project within specified timelines, demonstrating strong project management and organizational skills.
- Integrated ChartJS to visualize data effectively through interactive charts on the website
- Continuously updated and maintained the website, incorporating new features and improvements based on user feedback and industry trends
