PROFESSIONAL EXPERIENCE

Frontend Developer | Full-time   **February 2024 - Present**
Mimocodes   **Cairo, Egypt**

- Collaborated with a talented team at Mimocodes to bring complex projects to life, leveraging my expertise as a React Frontend Developer.
- Translated design concepts into dynamic and visually captivating websites ,incorporating intricate animations using FramerMotion for an enhanced user experience.
- Integrated backend systems seamlessly, occasionally delving into backend editing to tailor solutions to our specific needs, ensuring optimal functionality and performance.
- Crafted loading animations and implemented admin dashboards with sophisticated frontend logic, meeting and exceeding client expectations with each project delivery.
- Employed React Helmet to optimize websites for search engines, enhancing visibility and accessibility to target audiences.
- Implemented modern design principles using TailwindCSS and refined styling techniques, ensuring a polished and professional appearance across all projects, leaving a lasting impression on users.
- Demonstrated exceptional project management skills by consistently delivering projects within specified timelines, effectively coordinating tasks and resources to meet project milestones.
- Maintained a proactive approach to website upkeep, continuously updating and refining features based on user feedback and industry best practices to ensure ongoing satisfaction and relevance.

Frontend Developer | Remote   **September 2023 - January 2024**
Necron   **Riyadh, Saudi Arabia**

- Collaborated closely with a UI/UX designer, translating Figma designs into a functional and visually appealing website, showcasing effective communication and teamwork skills.
- Developed a responsive and visually appealing website for Necron Host, a leading hosting company in Saudi Arabia, focusing on the frontend implementation.
- Utilized React.js as the primary frontend library to create a dynamic and interactive user interface.
- Implemented React Helmet to optimize the website for search engines (SEO), enhancing its visibility and accessibility.
- Successfully delivered the project within specified timelines, demonstrating strong project management and organizational skills.

Frontend Developer | Remote   **December 2022 - September 2023**
Necron   **London, United Kingdom**

- Successfully developed and launched a complete website consisting of 12 pages for Labixe ltd from scratch, utilizing HTML, CSS, Tailwind, and React.js, showcasing exceptional front-end development skills.
- Implemented an intuitive user interface and responsive design, resulting in improved user experience and increased user engagement.
- Collaborated closely with cross-functional teams, including designers and backend developers, to ensure seamless integration of website components and efficient functionality.
- Actively maintained and updated the website, swiftly resolving any issues or bugs, ensuring optimal performance and functionality for users.
- Successfully integrated third-party APIs and services to extend the functionality of the website, enhancing its capabilities and providing additional value to users.
- Received positive feedback from users and stakeholders for the visually appealing design, smooth user experience, and seamless navigation, contributing to increased brand visibility and customer satisfaction.
- Integrated ChartJS to visualize data effectively through interactive charts on the website.
